Scott.

Thought I would let you know that Andy and I talked about the **Flint Hill North Pole Refinery** case today and we are proceeding. He is going to begin drafting the prefilng letter and body of the CAFO and I will be working on the penalty justification.

Currently, the draft penalty is just over \$100K for two violations. Likely no injunctive relief as they have already made the appropriate changes to come permanently into compliance.

If you agree to that my first day in back in the office will be Tuesday 12/17.

Think that's it...for Monday.

cheers.
